¹A Sample Pool Type of "RSP" indicates the Participating Retailer Location is included in the Representative Sample. A Sample Pool Type of "SNP" indicates the Participating Retailer Location was selected from the Suspected Noncompliance Pool. Participating Retailer Locations with a Sample Pool Type of "Both" are part of the Representative Sample and a selection from the Suspected Noncompliance Pool.

²A value of "1" indicates the Sales Volume for the Participating Retailer Location is included in the Retailer_sales Representative Sample Noncompliance Rate variable, whereas a value of "0" represents exclusion of the Sales Volume for the Participating Retailer Location (denominator).

³A value of "1" indicates the Sales Volume for the Participating Retailer Location is included in the Retailer_NC X Retailer_sales Representative Sample Noncompliance Rate variable, whereas a value of "0" represents exclusion of the Sales Volume for the Participating Retailer Location (numerator).
